Riding for Deliveroo Callum Cant 2019-11-11 What is life like for workers in the gig economy? Is it a paradise of flexibility and individual freedom? Or is it a world of exploitation and conflict? Callum Cant took a job with one of the most prominent platforms, Deliveroo, to find out. His vivid account of the reality is grim. Workers are being tyrannised by algorithms and exploited for the profit of the few – but they are not taking it lying down. Cant reveals a transnational network of encrypted chats and informal groups which have given birth to a wave of strikes and protests. Far from being atomised individuals helpless in the face of massive tech companies, workers are tearing up the rulebook and taking back control.

[/product/discontinued/navy Blue Colin Suit/ upload Caliva t Ferguson](#)

New developments in the workplace are combining to produce an explosive subterranean class struggle – where the stakes are high, and the risks are higher. **Riding for Deliveroo** is the first portrait of a new generation of working class militants. Its mixture of compelling first-hand testimony and engaging analysis is essential for anyone wishing to understand class struggle in platform capitalism.

The Far Right Today Cas Mudde 2019-10-25 The far right is back with a vengeance. After several decades at the political margins, far-right

Downloaded from [actux.com](#) on October 1, 2023 by Caliva t Ferguson

politics has again taken center stage. Three of the world's largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

Men's wear. [semi-monthly] 1910

The Sailor's Bookshelf Adm. James G. Stavridis, USN (Ret.) 2021-11-23 Admiral Stavridis, a leader in military, international affairs, and national security circles, shares his love of the sea and some of the sources of that affection. The Sailor's Bookshelf offers synopses of fifty books that illustrate the history, importance, lore, and lifestyle of the oceans and of those who "go down to the sea in ships." Stavridis colors those descriptions with glimpses of his own service—"sea stories" in popular parlance—that not only clarify his choices but show why he is held in such high esteem among his fellow sailors. Divided into four main categories—The Oceans, Explorers, Sailors in Fiction, and Sailors in Non-Fiction—Admiral Stavridis' choices will appeal to "old salts" and to those who have never known the sights of the ever-changing seascape nor breathed the tonic of an ocean breeze. The result is a navigational aid that guides readers through the realm of sea literature, covering a spectrum of topics that range from science to aesthetics, from history to modernity, from solo sailing to great battles. Among these eclectic choices are guides to shiphandling and navigation, classic fiction that pits man against the sea, ecological and strategic challenges, celebrations of great achievements and the lessons that come with failure, economic competition and its stepbrother combat, explorations of the deep, and poetry that beats with the pulse of the wave. Some of the included titles are familiar to many, while others, are likely less well-known but are welcome additions to this encompassing collection. Admiral Stavridis has chosen some books that are relatively recent, and he recommends other works which have been around much longer and deserve recognition.

Animals in Space Colin Burgess 2007-01-24 This book is as a detailed, but highly readable and balanced account of the history of animal space flights carried out by all nations, but principally the United States and the Soviet Union. It explores the ways in which animal high-altitude and space flight research impacted on space flight biomedicine and technology, and how the results - both successful and disappointing - allowed human beings to then undertake that same hazardous journey with far greater understanding and confidence. This complete and authoritative book will undoubtedly become the ultimate authority on animal space flights.

To Start a War Robert Draper 2021-07-27 "Essential . . . one for the ages . . . a must read for all who care about presidential power." —The Washington Post "Authoritative . . . The most comprehensive account yet of that smoldering wreck of foreign policy, one that haunts us today." —LA Times One of BookPage's Best Books of 2020 To Start a War paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with idées fixes who gamed the process relentlessly. Everything was believed; nothing was true. Robert Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara W. Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, *To Start A War* will stand as the definitive account of a collective scurrying for evidence that would prove to be not just dubious but entirely false—evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.

Russia's Military Modernisation: An Assessment The International Institute for Strategic Studies (IISS) 2020-09-29 This new IISS Strategic Dossier examines the recent development of Moscow's armed forces and military capabilities. It analyses the aspirations underpinning Russia's military reform programme and its successes as well as its failures. The book also provides insights into Russia's operational use of its armed forces, including in the intervention in Syria, the goals and results of recent state armament programmes, and the trajectory of future developments. This

full-colour volume includes more than 50 graphics, maps and charts and over 70 images, and contains chapters on: Russia's armed forces since the end of the Cold War Strategic forces Ground forces Naval forces Aerospace forces Russia's approach to military decision-making and joint operations Economics and industry At a time when Russia's relations with many of its neighbours are increasingly strained, and amid renewed concern about the risk of an armed clash, this dossier is essential reading for understanding the state, capabilities and future of Russia's armed forces.

Crossing the Borders of Power Colin Eglin 2007 Colin Eglin was at the frontline of the making of South African history for the second half of the 20th Century. He served in parliament through the terms of seven successive prime ministers and presidents -- from JG Strijdom to Thabo Mbeki; and under five constitutions, from the Union constitution to the constitution of 1996. In the constitutional negotiations that followed Nelson Mandela's release from jail in February 1990, Mandela described Eglin as 'one of the architects of our democracy'. Eglin continued to make his impact in parliament over the first ten years of South Africa's transition to democracy. In this book, Colin Eglin recalls an active life well lived, from childhood in South Africa in the 1920s and 1930s to fighting his way through Italy in the Second World War, then to fighting his corner in parliament -- from which perspective he provides searching insights into South African politics and politicians -- during the most dramatic and traumatic half-century in the history of South Africa.

Frog and Toad Are Friends Arnold Lobel 1970-08-26 One summer day Toad was unhappy. He had lost the white, fourholed, big, round, thick button from his jacket. Who helped him look for it? His best friend, Frog. Another day, Frog was unhappy. He was sick in bed and looking green. Who gave him some tea and told him a story? His best friend, Toad. From the first enchanting story to the last, these five adventures of two best friends are packed with excitement, gaiety, and tender affection. Children will find this book delightful to read and beautiful to look at, either story by story, or from cover to cover.

The Struggle for Air Force Independence Herman S. Wolk 2001-06-01 This series introduces the core areas of chemical science, covering important concepts in an easy, accessible style. Each title contains a number of experiments and demonstrations, approached through the process of problem, hypothesis, experiment and conclusion. All the books support the QCA schemes of work and contain: definitions of important terms and explanations of key concepts; formulae and word equations; and the periodic table with explanatory notes. This title explores the concepts of the states of matter.

The Meg Steve Alten 2018-07 Read the book that inspired the BLOCKBUSTER MOVIE starring Jason Statham, Li Bingbing, Rainn Wilson, Ruby Rose, Winston Chao, and Cliff Curtis! Seven years ago, and seven miles below the surface of the Pacific Ocean, Dr. Jonas Taylor encountered something that changed the course of his life. Once a Navy deep-sea submersible pilot, now a marine paleontologist, Taylor is convinced that a remnant population of *Carcharodon megalodon* -- prehistoric sharks growing up to 70 feet long, that subsisted on whales -- lurks at the bottom of the Mariana Trench. When offered the opportunity to return to those crushing depths in search of the Megs, Taylor leaps at the chance... but the quest for scientific knowledge (and personal vindication) becomes a desperate fight for survival, when the most vicious predator that the earth has ever known is freed to once-again hunt the surface.

Ask a Manager Alison Green 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no

matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The Use of Force in UN Peace Operations Trevor Findlay 2002 One of the most vexing issues that has faced the international community since the end of the Cold War has been the use of force by the United Nations peacekeeping forces. UN intervention in civil wars, as in Somalia, Bosnia and Herzegovina, and Rwanda, has thrown into stark relief the difficulty of peacekeepers operating in situations where consent to their presence and activities is fragile or incomplete and where there is little peace to keep. Complex questions arise in these circumstances. When and how should peacekeepers use force to protect themselves, to protect their mission, or, most troublingly, to ensure compliance by recalcitrant parties with peace accords? Is a peace enforcement role for peacekeepers possible or is this simply war by another name? Is there a grey zone between peacekeeping and peace enforcement? Trevor Findlay reveals the history of the use of force by UN peacekeepers from Sinai in the 1950s to Haiti in the 1990s. He untangles the arguments about the use of force in peace operations and sets these within the broader context of military doctrine and practice. Drawing on these insights the author examines proposals for future conduct of UN operations, including the formulation of UN peacekeeping doctrine and the establishment of a UN rapid reaction force.

Joint History Office 2016 "This revised fifth edition examines the development of the chairmanship as an institution over the last sixty-seven years. It presents an expanded historical essay and four additional career biographies, with associated updates to the supplementary sections and appendices." -- p.vii.

Beyond Nineteen Eighty-four William Lutz 1989 This book probes the efforts at manipulation individuals face daily in this information age and the tactics of persuaders from many sectors of society using various forms of Orwellian "doublespeak." The book contains the following essays: (1) "Notes toward a Definition of Doublespeak" (William Lutz); (2) "Truisms Are True: Orwell's View of Language" (Walker Gibson); (3) "Mr. Orwell, Mr. Schlesinger, and the Language" (Hugh Rank); (4) "What Do We Know?" (Charles Weingartner); (5) "The Dangers of Singlespeak" (Edward M. White); (6) "The Fallacies of Doublespeak" (Dennis Rohatyn); (7) "Doublespeak and Ethics" (George R. Bramer); (8) "Post-Orwellian Refinements of Doublethink: Will the Real Big Brother Please Stand Up?" (Donald Lazere); (9) "Worldthink" (Richard Ohmann); (10) "Bullets Hurt, Corpses Stink: George Orwell and the Language of Warfare" (Harry Brent); (11) "Political Language: The Art of Saying Nothing" (Dan F. Hahn); (12) "Fiddle-Faddle, Flapdoodle, and Balderdash: Some Thoughts about Jargon" (Frank J. D'Angelo); (13) "How to Read an Ad: Learning to Read between the Lies" (D. G. Kehl); (14) "Subliminal Chainings: Metonymical

Doublespeak in Advertising" (Don L. F. Nilsen); (15) "Doublespeak and the Polemics of Technology" (Scott Buechler); (16) "Make Money, Not Sense: Keep Academia Green" (Julia Penelope); (17) "Sensationspeak in America" (Roy F. Fox); and (18) "The Pop Grammarians--Good Intentions, Silly Ideas, and Doublespeak" (Charles Suhor). Three appendixes are attached: "The George Orwell Awards," "The Doublespeak Award," and "The Quarterly Review of Doublespeak." (MS)

Mining and Scientific Press 1897

Blue and Yellow Don't Make Green Michael Wilcox 1994 For more than 200 years the world has accepted that red, yellow and blue - the artists primaries - give new colours when mixed. And for more than 200 years artists have been struggling to mix colours on this basis. In this exciting new book, Michael Wilcox offers a total reassessment of the principles underlying colour mixing. It is the first major break-away from the traditional and limited concepts that have caused painters and others who work with colour so many problems. Back Cover.

The Power of Habit Charles Duhigg 2012-02-28 NEW YORK TIMES

BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."—Jim Collins "Few [books] become essential manuals for business and living. *The Power of Habit* is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good."—Financial Times "A flat-out great read."—David Allen, bestselling author of *Getting Things Done: The Art of Stress-Free Productivity* "You'll never look at yourself, your organization, or your world quite the same way."—Daniel H. Pink, bestselling author of *Drive* and *A Whole New Mind* "Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change."—The New York Times Book Review

Lady Chatterley's Lover D. H. Lawrence 2018-11-12 *Lady Chatterley's Lover* is a novel by D. H. Lawrence written in 1928. Printed privately in Florence in 1928, it was not printed in the United Kingdom until 1960 (other than in an underground edition issued by Inky Stephensen's Mandrake Press in 1929). Lawrence considered calling this book *Tenderness* at one time and made significant alterations to the original manuscript in order to make it palatable to readers. It has been published in three different versions.

The Mayaguez Crisis, Mission Command, and Civil-military Relations Christopher Jon Lamb 2018 Preface -- Abbreviations -- Key figures in the Mayaguez Crisis -- Introduction -- Day one: Monday, May 12 -- Day two: Tuesday, May 13 -- Day three: Wednesday, May 14 -- Day four: Thursday, May 15 -- Critical crisis decisions -- Explaining decisions, behaviors and outcomes -- Refining the explanation: rationality, bureaucracy and beliefs -- Findings, issues, prescriptions -- Conclusion.

A-10s Over Kosovo Phil M. Haun 2011 First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, "marked a real turning point . . . and proved that a war can be won by airpower alone." Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower—the members of the 40th Expeditionary Operations Group. Their descriptions—a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot—provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.

Anchor of Resolve: a History of U. S. Naval Forces Central Command/Fifth Fleet Robert J. Schneller 2019-08-22

This illustrated history explains why the Navy is present in the Middle East, how long it's been in the region, and what it's been doing there. America's interests in the Middle East, southwest Asia, and eastern Africa date almost to the founding of the nation. Since World War II, the Navy has been the first line

of defense for these interests. From the establishment of the Middle East Force (MEF) in 1949 through the beginning of the 21st century, the U.S. Navy served as a force for stability and peace in the region. The Navy's presence helped prevent regional crises from escalating into wars, enforce international sanctions, and minimize damage done by regional conflicts to American and allied interests. The work concentrates on the Navy's command relationships, roles and missions, and operations in the period leading up to the First Gulf War, the war itself, and the wars in Afghanistan and Iraq.

Fast Food Nation Eric Schlosser 2012 Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Airpower for Strategic Effect Colin S. Gray 2012-08-01 In this magisterial tour d'horizon of the air weapon's steady rise in effectiveness since its fledgling days, Colin Gray, a prolific strategist of long-standing scholarly achievement and international repute, has rightly taken a long view of today's pattern of regional conflict by appraising airpower in the broader context in which its operational payoff will ultimately be registered. His careful development of airpower's "strategic narrative," as he calls it, shows convincingly how the relative criticality of the air weapon in joint warfare is neither universal nor unchanging but rather is crucially dependent on the particular circumstances of a confrontation. More to the point, viewed situationally, airpower can be everything from single-handedly decisive to largely irrelevant to a combatant commander's needs, depending on his most pressing challenges of the moment. Because its relative import, like that of all other force elements, hinges directly on how its comparative advantages relate to a commander's most immediate here-and-now concerns, airpower does not disappoint when it is not the main producer of desired outcomes. Indeed, the idea that airpower should be able to perform effectively in all forms of combat unaided by other force elements is both an absurd measure of its operational merit and a baseless arguing point that its most outspoken advocates, from Giulio Douhet and Billy Mitchell onward, have done their cause a major disservice by misguidedly espousing over many decades.

Although the air weapon today may have been temporarily overshadowed by more land-centric forms of force employment, given the kinds of lower-intensity conflicts that the United States and its allies have been obliged to contend with in recent years, there will most assuredly be future times when new challenges yet to arise will again test America's air posture to the fullest extent of its deterrent and combat potential. Professor Gray's central theme is that airpower generates strategic effect. More specifically, he maintains, airpower is a tactical equity that operates—ideally—with strategic consequences. To him, "strategic" does not inhere in the equity's physical characteristics, such as an aircraft's range or payload, but rather in what it can do by way of producing desired results. From his perspective, a strategic effect is, first and foremost, that which enables outcome-determining results. And producing such results is quintessentially the stock in trade of American airpower as it has progressively evolved since Vietnam. *Airpower for Strategic Effect* offers an uncommonly thoughtful application of informed intellect to an explanation of how modern air warfare capabilities should be understood. Along the way, it puts forward a roster of observations about the air weapon that warrant careful reflection by all who would presume to find it wanting. Among the most notable of those observations are that context rules in every case and that whether airpower should be regarded as supported by or supporting of other force elements is not a question that can ever have a single answer for all time. Rather, as noted above, the answer will hinge invariably on the unique conditions of any given conflict.

Ebony 2005-11 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.
