Communication for Development and Social Change Jan Servaes 2008-12-08 This volume is first and foremost about people and the processes needed to facilitate sharing of knowledge in order to effect positive developmental change. It is contextual and based on dialogue necessary to promote stakeholder's participation, which is essential for the understanding of their perceptions, perspectives, values, attitudes and practices, so that these can be incorporated into the design and implementation of development initiatives. This volume follows the two-way horizontal model and increasingly makes use of many-to-many forms of communications to facilitate the understanding of people's perceptions, priorities and knowledge with its use of a number of tools, techniques, media and methods. It aims to give voice to those most affected by the development issue(s) at stake, allowing them to participate directly in defining and implementing solutions and identifying development directions.

Based on the assumption that authentic participation directly addresses power and its distribution in society, which often decreases the advantage of certain elite groups, the authors argue that structural and sustainable change necessitates the redistribution of power. This collection offers perceptive insights and vivid examples to prove that the field of communication for development and social change is indeed vibrant.

Constituent Imagination Stevphen Shukaitis 2007 From the ivory tower to the barricades! Radical intellectuals explore the relationship between research and resistance.

Albion's Seed David Hackett Fischer 1991-03-14 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

How India Clothed the World 2009-07-31 Drawing on new research on textile trade and production in the regions that depended on the Indian Ocean, the book contributes to a new understanding of the role that Indian cloth played in the making of the modern world economy.

Form, Fit, Fashion Jay Calderin 2009-12-01 An indispensable primer for students and first-stop reference for professionals, Form, Fit, and Fashion guides the fashion designer through the entire design process, from conceiving a garment to marketing it. This handbook collects the information and ideas essential to planning and executing fashion projects of every scale and distills them in an easy-to-use format that is compact enough to slip into a tote. Linking six central phases in the cycle of

fashionâ€™research, editing, design, construction, connection, and evolutionâ€™Form, Fit, and Fashion will help designers to develop effective strategies for building a cohesive collection and communicating their vision.

Capital Karl Marx 1990 Records Marx's critical study of capitalism as an economic system and briefly evaluates his handling of the subject

Farming Systems in the Tropics Hans Ruthenberg 1976 Some general characteristics of farming in a tropical environment; Shifting cultivation systems; Fallow systems; Ley systems; Systems with permanent upland cultivation; Systems with arable irrigation farming; Systems with perennial crops; Grazing systems; General tendencies in the development of tropical farm systems.

The United Nations, Peace and Security Ramesh Thakur 2006-06-08 Preventing humanitarian atrocities is becoming as important for the United Nations as dealing with inter-state war. In this book, Ramesh Thakur examines the transformation in UN operations, analysing its changing role and structure. He asks why, when and how force may be used and argues that the growing gulf between legality and legitimacy is evidence of an eroded sense of international community. He considers the tension between the US, with its capacity to use force and project power, and the UN, as the centre of the international law enforcement system. He asserts the central importance of the rule of law and of a rules-based order focused on the UN as the foundation of a civilised system of international relations. This book will be of interest to students of the UN and international organisations in politics, law and international relations departments, as well as policymakers in the UN and other NGOs.

Spaces of Identity David Morley 2002-09-11 We are living through a time when old identities - nation, culture and gender are melting down. Spaces of Identity examines the ways in which collective cultural identities are being reshaped under conditions of a post-modern geography and a communications environment of cable and satellite broadcasting. To address current problems of identity, the authors look at contemporary politics between Europe and its most significant others: America; Islam and the Orient. They show that it's against these places that Europe's own identity has been and is now being defined. A stimulating account of the complex and contradictory nature of contemporary cultural identities.

The Handbook of Conflict Resolution Morton Deutsch 2006-09-18 The Handbook of Conflict Resolution, Second Edition is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

Female Genital Plastic and Cosmetic Surgery Michael P. Goodman 2016-02-03 Female genital plastic surgery has become an increasingly sought-after option for women seeking improvement in genital appearance, relief from discomfort, and increased sexual pleasure. These surgeries are a combination of gynecologic, plastic, and cosmetic procedures. Every year sees a higher demand for physicians properly trained and able to perform them. This unique text from the acknowledged experts in the field covers; the anatomy of the area the specific surgical procedures and all their variations patients' rationales for surgery training guidelines and ethical issues outcome statistics sexual issues patient selection potential risks and complications. Examining the issues from individual patient's perspectives, it is written in an academic but easy-to-read style with understandable and unambiguous drawings and photographs. It contains a step-by-step surgical approach, how to best select the right surgical candidates, how to treat this select group of patients, the sexual issues involved, how to individualize techniques for each specific patient, how to deal with criticism from colleagues or journalists, psychosexual issues, and patient protection.

Out Of Control Kevin Kelly 2009-04-30 Out of Control chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

Idea Man Paul Allen 2011-04-28 By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this long-awaited memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

Out of Control Kevin Kelly 1995 A synthesis of research and theory, this work chronicles the dawn of a new era in which the adaptability and autonomy of living organisms becomes the model for human made systems and machines. The author combines ideas from the Choas Theory, cybernetics, current thinking on evolution and research into computerized artificial life with his own experience of on-line culture to show that industrial culture is now obsolete. This book presents the prospects of imminent revolution as Kelly identifies new frontiers of thinking about biological systems that will change the way the natural world is percieved. **Modern Recording Techniques** David Miles Huber 2012-09-10 As the most popular and authoritative guide to recording Modern Recording Techniques provides everything you need to master the tools and day to day practice of music recording and production. From room acoustics and running a session to mic placement and designing a studio Modern Recording Techniques will give you a really good grounding in the theory and industry practice. Expanded to include the latest digital audio technology the 7th edition now includes sections on podcasting, new surround sound formats and HD and audio. If you are just starting out or looking for a step up in industry, Modern Recording Techniques provides an in depth excellent read- the must have book

God Under Howard Marion Maddox 2005-02-01 The first sustained examination of the impact of religion on contemporary Australian politics reveals the growing influence of the religious right on John Howard and his government. 'God is working for the Liberal Party and this fine, disturbing book arrives just in time to tell us how. An eye-opening exploration of the real politics of Australia.' - David Marr '. a convincing and disturbing picture of the capacity of John Howard, and some of his friends, to co-opt God for their own political agenda.' - Dorothy McRae-McMahon '[spells] out the complicated place of religion in Australian politics today' - Professor John Hewson In the 2004 federal election campaign religion seemed to spring out of nowhere to take centre stage. In fact it was just the latest act in a drama that has been quietly developing for over a decade in Australian politics. Assiduously cultivated by John Howard, an extreme form of conservative Christianity now has real influence on our politicians and their policies. How has American-style evangelicalism become so prominent in secular Australia? Why are abortion, creationism and family values now on the political agenda? Why is religion no longer a private matter for public figures? In God Under Howard Marion Maddox explains how John Howard has harnessed the conservative social agenda and market-based ideology of American fundamentalists in order to stay in power. As a result, she argues that Australia's democratic, egalitarian culture is now under serious assault.

Progress and Poverty Henry George 1923 First published in 1879, “Progress and Poverty” is the ground-breaking treatise on the relationship between industrialization and poverty by Henry George, the American social theorist and economist. A huge commercial success when it was published and one of the best-selling books in America in the late 19th century, George’s work had a profound influence on economists, politicians, and social reformers all over the world. In “Progress and Poverty”, George attempted to understand why the technical and economic progress of the Industrial Age was so often accompanied by increases in poverty and human suffering. These “boom and bust” cycles in the economy had devastating impacts on countless numbers of people and George sought to find better solutions to these pressing problems. The solution that he proposed was radical at the time: a tax on land so that the value of private property could protect the most vulnerable from the fluctuations in the larger economy. Many of his ideas were instrumental to a new progressive social movement and have been adopted by several countries in the century since his work was first published

[That Greece Might Still be Free](#) William St. Clair 2008 When in 1821, the Greeks rose in violent revolution against the rule of the Ottoman Turks, waves of sympathy spread across Western Europe and the United States. More than a thousand volunteers set out to fight for the cause. The Philhellenes, whether they set out to recreate the Athens of Pericles, start a new crusade, or make money out of a war, all felt that Greece had unique claim on the sympathy of the world. As Byron wrote, 'I dreamed that Greece might Still be Free'; and he died at Missolonghi trying to translate that dream into reality. William St Clair's meticulously researched and highly readable account of their aspirations and experiences was hailed as definitive when it was first published. Long out of print, it remains the standard account of the Philhellenic movement and essential reading for any students of the Greek War of Independence, Byron, and European Romanticism. Its relevance to more modern ethnic and religious conflicts is becoming increasingly appreciated by scholars worldwide. This new and revised edition includes a new Introduction by Roderick Beaton, an updated Bibliography and many new illustrations.

The Code of Hammurabi Hammurabi 2019-12-03 The Code of Hammurabi is a well-preserved Babylonian law code of ancient Mesopotamia, dating back to about 1754 BC. It is one of the oldest deciphered writings of significant length in the world. The sixth Babylonian king, Hammurabi, enacted the code, and partial copies exist on a man-sized stone stele and various clay tablets. The Code consists of 282 laws, with scaled punishments, adjusting "an eye for an eye, a tooth for a tooth" (lex talionis) as graded depending on social status, of slave versus free man. Nearly one-half of the Code deals with matters of contract, establishing, for example, the wages to be paid to an ox driver or a surgeon. Other provisions set the terms of a transaction, establishing the liability of a builder for a house that collapses, for example, or property that is damaged while left in the care of another. A third of the code addresses issues concerning household and family relationships such as inheritance, divorce, paternity, and sexual behavior. Only one provision appears to impose obligations on an official; this provision establishes that a judge who reaches an incorrect decision is to be fined and removed from the bench permanently. A few provisions address issues related to military service. Hammurabi ruled for nearly 42 years, c. 1792 to 1750 BC according to the Middle chronology. In the preface to the law, he states, "Anu and Bel called by name me, Hammurabi, the exalted prince, who feared Marduk, the patron god of Babylon (The Human Record, Andrea & Overfield 2005), to bring about the rule in the land." On the stone slab there are 44 columns and 28 paragraphs that contained 282 laws. The laws follow along the rules of 'an eye for an eye'.

Technology for Humanitarian Action Kevin M. Cahill 2005 Humanitarian workers around the world struggle under dangerous conditions. Yet many do not have the technological tools readily available elsewhere to help them realize their mission to provide essential services and save lives. This book, the fruit of a historic conference, is a practical guide to current technologies that can help relief and humanitarian aid workers succeed. Designed to facilitate needed technology transfer to the humanitarian sector, the essays focus on areas where technology is underused and predict where new technological advances may be applied to relief efforts. The essays cover essential areas: communications technology and infrastructure support and security. They describe how such technologies as personal identification and tagging systems, software radios, wireless networks, and computer-aided language translation can promote safety and manage large groups of people. Other essays outline new technological solutions to such challenges as mine removal, water purification, and energy generation. The contributors are: Kevin M. Cahill, Frank Fernandez, C. Kumar Patel, Paul J. Kolodzy, Joseph Mitola III, Victor Zue, Jaime G. Carbonell, Stephen Squires, Joseph V. Braddock, Arthur L. Lerner-Lam, Ralph James, William L. Warren, and Regina E. Dugan.

The Patch John McPhee 2018-11-13 The Patch is the seventh collection of essays by the nonfiction master, all published by Farrar, Straus and Giroux. It is divided into two parts. Part 1, “The Sporting Scene,” consists of pieces on fishing, football, golf, and lacrosse—from fly casting for chain pickerel in fall in New Hampshire to walking the linksland of St. Andrews at an Open Championship. Part 2, called “An Album Quilt,” is a montage of fragments of varying length from pieces done across the years that have never appeared in book form—occasional pieces, memorial pieces, reflections, reminiscences, and short items in various magazines including The New Yorker. They range from a visit to the Hershey chocolate factory to encounters with Oscar Hammerstein, Joan Baez, and Mount Denali. Emphatically, the author’s purpose was not merely to preserve things but to choose passages that might entertain contemporary readers. Starting with 250,000 words, he gradually threw out 75 percent of them, and randomly assembled the remaining fragments into “an album quilt.” Among other things, The Patch is a covert memoir.

Ketamine Karl Jansen 2001-01-01

Dreams from My Father Barack Obama 2007-01-09 #1 NEW YORK TIMES BESTSELLER • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS In this iconic memoir of his early days, Barack Obama “guides us straight to the intersection of the most serious questions of identity, class, and race” (The Washington Post Book World). “Quite extraordinary.”—Toni Morrison In this lyrical, unsentimental, and compelling memoir, the son of a black African father and a white American mother searches for a workable meaning to his life as a black American. It begins in New York, where Barack Obama learns that his father—a figure he knows more as a myth than as a man—has been killed in a car accident. This sudden death inspires an emotional odyssey—first to a small town in Kansas, from which he retraces the migration of his mother’s family to Hawaii, and then to Kenya, where he meets the African side of his family, confronts the bitter truth of his father’s life, and at last reconciles his divided inheritance. Praise for Dreams from My Father “Beautifully crafted . . . moving and candid . . . This book belongs on the shelf beside works like James McBride’s The Color of Water and Gregory Howard Williams’s Life on the Color Line as a tale of living astride America’s racial categories.”—Scott Turow “Provocative . . . Persuasively describes the phenomenon of belonging to two different worlds, and thus belonging to neither.”—The New York Times Book Review “Obama’s writing is incisive yet forgiving. This is a book worth savoring.”—Alex Kotlowitz, author of There Are No Children Here “One of the most powerful books of self-discovery I’ve ever read, all the more so for its illuminating insights into the problems not only of race, class, and color, but of culture and ethnicity. It is also beautifully written, skillfully layered, and paced like a good novel.”—Charlayne Hunter-Gault, author of In My Place “Dreams from My Father is an exquisite, sensitive study of this wonderful young author’s journey into adulthood, his search for community and his place in it, his quest for an understanding of his roots, and his discovery of the poetry of human life. Perceptive and wise, this book will tell you something about yourself whether you are black or white.”—Marian Wright Edelman

Oracle E-Business Suite Inventory R12 Vivek Jain 2012-06-29 Oracle e-Business Suite Inventory R12 is written for new and intermediate users, key-users and administrators. It focuses on your role in an Oracle eBS-environment and explains the Concepts, describes the main Screens with navigation paths, gives Step-by-Step instructions and has a Glossary. All chapters have Questions and Answers.The book has seven chapters, 148 pages and 166 screenshots and illustrations.The Topics

include: Unit of Measure, Unit of measure classes, Primary UOM, Base Unit, UOM Conversions, Intra-class and Inter-class Conversions, Lot specific UOM Conversions, Item Category Flexfield Structures, Category Sets, Locaters, Item Assignments, Item Master Organization, Item Templates, Category Assignment, Subinventory Transfer, FIFO (first-in-first-out) and LIFO costing method, Define Sub-Inventory Transfer, Current On-Hand Quantity, Physical Inventory, Forecast, Reservation, Material Workbench Screen, Run Multi-Organization Quantity Report, Multi-Organization Quantity, Min-Max Planning, Reorder Point Planning, Kanban Replenishment, Statistical Forecasting, Generate Physical Inventory Tags, Approve Adjustments and much more. What do eBS users think about these books?"Very well structured and easy to follow, even for beginners."John M. McNamara - Wokingham Borough Council"Highly informative and exemplary, hats off."Sunil Sunder Rao - Apps DBA"A single place containing all core eBS Topics!"Hans Schoonen - Director ICT-OKE

Accelerando Charles Stross 2005-07-05 The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension.

Something that has no use for biological life in any form...

Sustainable Energy David J. C. MacKay 2009

Capital Karl Marx 2006-05-25 The "forgotten" second volume of Capital, Marx's world-shaking analysis of economics, politics, and history, contains the vital discussion of commodity, the cornerstone to Marx's theories.

Professional Microphone Techniques David Miles Huber 1998 This book, by the author of industry bestseller "Modern Recording Techniques", focuses on microphone usage for dozens of different instruments as well as vocals, amplifiers, Leslie cabinets and much more! Accompanied by an audio CD that allows you to hear the different effects of microphone placement techniques in real time for a full understanding of how to get the best recordings from any type of microphone!

Good Research Guide Martyn Denscombe 2003 The Good Research Guidehas been a bestselling introduction to the basics of social research since it was first published in 1998. This new second edition of the book offers the same clear guidance on how to conduct successful small-scale research projects and adds even more value by including new sections on internet research, phenomenology, grounded theory and image-based methods. The book provides: a clear summary of the relevant strategies, methods and approaches to data analysis a jargon-free coverage of the key issues an attractive layout and user-friendly presentation checklists to guide good practice. Practical and comprehensive,The Good Research Guideis an invaluable tool for students of education, health studies, business studies and other social sciences, who need to conduct small-scale research projects as part of undergraduate, postgraduate or professional studies.

Content Analysis Klaus Krippendorff 2004 The Second Edition of Content Analysis: An Introduction to Its Methodology is a definitive sourcebook of the history and core principles of content analysis as well as an essential resource for present and future studies. The book introduces readers to ways of analyzing meaningful matter such as texts, images, voices - that is, data whose physical manifestations are secondary to the meanings that a particular population of people brings to them. Organized into three parts, the book examines the conceptual and methodological aspects of content analysis and also traces several paths through content analysis protocols. The author has completely revised and updated the Second Edition, integrating new information on computer-aided text analysis. The book also includes a practical guide that incorporates experiences in teaching and how to advise academic and commercial researchers. In addition, Krippendorff clarifies the epistemology and logic of content analysis as well as the methods for achieving its aims. Intended as a textbook for advanced undergraduate and graduate students across the social sciences, Content Analysis, Second Edition will also be a valuable resource for practitioners in a variety of disciplines.

History of Windham County, Connecticut: 1600-1760 Ellen Douglas Larned 1874

Fashion Marketing Tony Hines 2007-02-07 A collection of international contributions from renowned academics and practitioners from the US, UK, China, the second edition of Fashion Marketing has been completely updated, revised and expanded to reflect the major changes in the fashion industry since 2001 and covers all of the key themes and issues of the area. Muriel Pagliano 1998

Peter M. Kenny 2011 "Duncan Phyfe (1770-1854), known during his lifetime as the "United States Rage," to this day remains America's best-known cabinetmaker. Establishing his reputation as a purveyor of luxury by designing high-quality furniture for New York's moneyed elite, Phyfe would come to count among his clients some of the nation's wealthiest and most storied families. This richly illustrated volume covers the full chronological sweep of the craftsman's distinguished career, from his earliest furniture-- which bears the influence of his 18th-century British predecessors Thomas Sheraton and Thomas Hope--to his late simplified designs in the Grecian Plain. More than sixty works by Phyfe and his workshop are highlighted, including rarely seen pieces from private collections and several newly discovered documented works. Additionally, essays by leading scholars bring to light new information on Phyfe's life, his workshop production, and his roster of illustrious patrons. What unfolds is the story of Phyfe's remarkable transformation from a young immigrant craftsman to an accomplished master cabinetmaker and an American icon."--Publisher's website.

Proofreading, Revising & Editing Skills Success in 20 Minutes a Day Brady Smith 2003 This comprehensive guide will prepare candidates for the test in all 50 states. It includes four complete practice exams, a real estate refresher course and complete math review, as well as a real estate terms glossary with over 900 terms, and expert test-prep tips.

Inherent Vice Thomas Pynchon 2012-06-13 Part noir, part psychedelic romp, all Thomas Pynchon—Private eye Doc Sportello surfaces, occasionally, out of a marijuana haze to watch the end of an era In this lively yarn, Thomas Pynchon, working in an unaccustomed genre that is at once exciting and accessible, provides a classic illustration of the principle that if you can remember the sixties, you weren't there. It's been a while since Doc Sportello has seen his ex- girlfriend. Suddenly she shows up with a story about a plot to kidnap a billionaire land developer whom she just happens to be in love with. It's the tail end of the psychedelic sixties in L.A., and Doc knows that "love" is another of those words going around at the moment, like "trip" or "groovy," except that this one usually leads to trouble. Undeniably one of the most influential writers at work today, Pynchon has penned another unforgettable book.

Business O. C. Ferrell 1989

Trap Door Reina Gossett 2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. Trap Door grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered “doors”—entrances to visibility and recognition—that are actually “traps,” accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. Trap Door begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture. Contributors Lexi Adsit, Sara Ahmed, Nicole Archer, Kai Lumumba Barrow, Johanna Burton, micha cárdenas, Mel Y. Chen, Grace Dunham, Treva Ellison, Sydney Freeland, Che Gossett, Reina Gossett, Stamatina Gregory, Miss Major Griffin-Gracy, Robert Hamblin, Eva Hayward, Juliana Huxtable, Yve Laris Cohen, Abram J.
