The Anatomy of Fashion Colin McDowell 2013-09-30 Why do we dress the way we do? How has fashion changed and evolved over the centuries? How did the 3-piece suit come about? Why have hemlines risen and fallen over time? In *The Anatomy of Fashion*, respected fashion commentator Colin McDowell goes beyond standard fashion histories and narrative surveys to answer these questions and many more. The book's unique structure takes the reader from head to toe in sections such as `The Body Unclothed,? `Materials and Texture,? `Head to Waist,? `Hips to Feet,? `Looks and Themes in Dress,? and more. Visually rich, with over 500 photographs, illustrations, paintings, and film stills, the book includes work by designers and labels such as Ralph Lauren, Chanel, Yves Saint Laurent, Alexander McQueen, Versace, Carhartt, Diesel and more. Anatomy of Fashion is not simply a picture book. It is a sourcebook by one of the world's leading fashion scholars that seeks nothing less than a thorough analysis of the roots of every aspect of fashion today.

Goya Janis A. Tomlinson 2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

Millennial Capitalism and the Culture of Neoliberalism Jean Comaroff 2001-07-05 DIVA special issue of PUBLIC CULTURE, this collection of essays forms an empirically grounded, conceptual discussion that posits global millennial capitalism as a historical formation./div

Ocean of Sound David Toop 1995 "Ocean of Sound" begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are "Rap Attack 3 "and "Exotica,"

Redeeming Features Nicholas Haslam 2009 "This book, from British interior designer Nicholas Haslam, is an account of a frenetic and full life - from the 1940s to the present - in Europe and America, in a crowd of friends and acquaintances that includes virtually all of the cultural icons of our time." "Redeeming Features is about much more than documenting a life among the celebrated and the eccentric: it is a vivid, at times humorous and moving portrait of a way of life that has all but disappeared. Haslam has an exacting eye for the telling detail and his story is a compelling and wholly fascinating document of our times." --Book Jacket.

Privilege and Property Ronan Deazley 2010 What can and can't be copied is a matter of law, but also of aesthetics, culture, and economics. The act of copying, and the creation and transaction of rights relating to it, evokes fundamental notions of communication and censorship, of authorship and ownership - of privilege and property. This volume conceives a new history of copyright law that has its roots in a wide range of norms and practices. The essays reach back to the very material world of craftsmanship and mechanical inventions of Renaissance Italy where, in 1469, the German master printer Johannes of Speyer obtained a five-year exclusive privilege to print in Venice and its dominions. Along the intellectual journey that follows, we encounter John Milton who, in his 1644 Areopagitica speech 'For the Liberty of Unlicensed Printing', accuses the English parliament of having been deceived by the 'fraud of some old patentees and monopolizers in the trade of bookselling' (i.e. the London Stationers' Company). Later revisionary essays investigate the regulation of the printing press in the North American colonies as a provincial and somewhat crude version of European precedents, and how, in the revolutionary France of 1789, the subtle balance that the royal decrees had established between the interests of the author, the bookseller, and the public, was shattered by the abolition of the privilege system. Contributions also address the specific evolution of rights associated with the visual and performing arts. These essays provide essential reading for anybody interested in copyright, intellectual history and current public policy choices in intellectual property. The volume is a companion to the digital archive Primary Sources on Copyright (1450-1900), funded by the UK Arts and Humanities Research Council (AHRC): www.copyrighthistory.org.

The Chiffon Trenches André Leon Talley 2020-05-19 NEW YORK TIMES BESTSELLER • From the pages of Vogue to the runways of Paris, this “captivating” (Time) memoir by a legendary style icon captures the fashion world from the inside out, in its most glamorous and most cutthroat moments. “The Chiffon Trenches honestly and candidly captures fifty sublime years of fashion.”—Manolo Blahnik NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • Fortune • Garden & Gun • New York Post During André Leon Talley’s first magazine job, alongside Andy Warhol at Interview, a fateful meeting with Karl Lagerfeld began a decades-long friendship with the enigmatic, often caustic designer. Propelled into the upper echelons by his knowledge and adoration of fashion, André moved to Paris as bureau chief of John Fairchild’s Women’s Wear Daily, befriending fashion’s most important designers (Halston, Yves Saint Laurent, Oscar de la Renta). But as André made friends, he also made enemies. A racially tinged encounter with a member of the house of Yves Saint Laurent sent him back to New York and into the offices of Vogue under Grace Mirabella. There, he eventually became creative director, developing an unlikely but intimate friendship with Anna Wintour. As she rose to the top of Vogue’s masthead, André also ascended, and soon became the most influential man in fashion. The Chiffon Trenches offers a candid look at the who’s who of the last fifty years of fashion. At once ruthless and empathetic, this engaging memoir tells with raw honesty the story of how André not only survived the brutal style landscape but thrived—despite racism, illicit rumors, and all the other challenges of this notoriously cutthroat industry—to become one of the most renowned voices and faces in fashion. Woven throughout the book are also André’s own personal struggles that impacted him over the decades, along with intimate stories of those he turned to for inspiration (Diana Vreeland, Diane von Fürstenberg, Lee Radziwill, to name a few), and of course his Southern roots and faith, which guided him since childhood. The result is a highly compelling read that captures the essence of a world few of us will ever have real access to, but one that we all want to know oh so much more about.

Fashion, Costume, and Culture Sara Pendergast 2003 This volume provides a history of human decoration and adornment.

Chromophobia David Batchelor 2000-09 Batchelor coins the term "chromophobia"--A fear of corruption or contamination through color--in a meditation on color in western culture. Batchelor analyzes the history of, and the motivations behind, chromophobia, from its beginnings through examples of nineteenth-century literature, twentieth-century architecture and film to Pop art, minimalism and the art and architecture of the present day. He argues that there is a tradition of resistance to colour in the West, exemplified by many attempts to purge color from art, literature and architecture. Batchelor seeks to analyze the motivations behind chromophobia, considering the work of writers and philosophers who have used color as a significant motif, and offering new interpretations of familiar texts and works of art.

Vogue on Yves Saint Laurent Natasha Fraser-Cavassoni 2015-10-06 Originally born in Algeria, Yves Saint Laurent moved to Paris when he was 18, and only three years later he was handpicked by Christian Dior to take the reins as designer of his fashion house. Over time, Saint Laurent resurrected haute couture from the casual mores that predominated in the 1960s, but also offered chic cachet to ready-to-wear clothing. He was among the earliest of designers to incorporate non-European references into his work, and in 1983 he became the first living designer to be feted with a solo exhibition at The Metropolitan Museum of Art in New York. Vogue on Yves Saint Laurent is a stellar volume in the series from the editors of British Vogue, featuring 20,000 words of original biography and history and studded with more than 80 images from their unique archive of images taken by leading photographers.

Chanel Edmonde Charles-Roux 2002-07-01 Coco Chanel was a legend who revolutionised the way women looked. She became the single most important arbiter of fashion and taste in the 20th century. Just her name was sufficient to convey prestige, quality and unmistakable style. The Duke of Westminster wooed her, Stravinsky played for her and Goldwyn enticed her to Hollywood. She knew everybody who was anybody in the world of the arts from Picasso and Cocteau to Marlene Dietrich and Ingrid Bergman. She designed frankly fake jewellery, introduced the basic 'little black dress' and perfumed the world with her No. 5. However, as this remarkable biography shows, there was a mass of contradictions behind the myth of 'Mademoiselle'. Chanel follows her story from her upbringing in provincial Auvergne through her first successes in the 1920s to her comeback in the 1950s and 1960s. Edmond Charles-Roux's book is definitive as history and immensely entertaining as gossip.

The Altering Eye Robert Phillip Kolker 2009 The Altering Eye covers a "golden age" of international cinema from the end of WWII through to the New German Cinema of the 1970s. Combining historical, political, and textual analysis, the author develops a pattern of cinematic invention and experimentation from neorealism through the modernist interventions of Jean-Luc Godard and Rainer Maria Fassbinder, focusing along the way on such major figures as Luis Buñuel, Joseph Losey, the Brazilian director Glauber Rocha, and the work of major Cuban filmmakers. Kolker's book has become a much quoted classic in the field of film studies providing essential reading for anybody interested in understanding the history of European and international cinema. This new and revised edition includes a substantive new Preface by the author and an updated Bibliography.

Aesthetic Politics in Fashion Elke Gaugele 2015-01-01 "Aesthetic Politics in Fashion outlines critical studies in the present cross-sections of fashion, art, politics, and global capitalism. Critically examining contemporary collaborations of artists, media, and fashion labels, this groundbreaking anthology locates fashion within ecological and ethical discourses, postcolonial styles, and critical reflections on whiteness. Contributions from a distinguished group of international scholars debate fashion as a cultural phenomenon at the intersection of artistic, creative, economic, and everyday practices. Aesthetic economies, the production of space, and alternative aesthetic politics are explored from interdisciplinary angles: art history, cultural science, sociology, design, and fashion studies. Aesthetic Politics in Fashion advances theorizing of fashion as an aesthetic metapolitics."--Publisher's website.

Popular both on the catwalk and on the street, it made front-page news when worn by Diana, Princess of Wales and by Cherie Booth, the wife of UK Prime Minister Tony Blair. In her ethnography of the local and global design economies established by Asian women fashion

entrepreneurs, Parminder Bhachu focuses on the transformation of the salwaar-kameez from negatively coded 'ethnic clothing' to a global garment fashionable both on the margins and in the mainstream. Exploring the design and sewing businesses, shops and street fashions in which this revolution has taken place, she shows how the salwaar-kameez is today at the heart of new economic micro-markets which themselves represent complex, powerfully coded means of cultural dialogue and racial politics. The innovative designs of second-generation British Asian women are drawn from characteristically improvisational migrant cultural codes. Through their hybrid designs and creation of new aesthetics, these women cross cultural boundaries, battling with racism and redefining both Asian and British identities. At the same time, their border-crossing commercial entrepreneurship produces new diaspora economies which give them control over many economic, aesthetic, cultural and technological resources. In this way, the processes of global capitalism are gendered, racialized and localized through the interventions of diasporic women from the margins.

The Modernist Papers Fredric Jameson 2016-03-08 Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.

Soil and Culture Edward R. Landa 2010-01-28 SOIL: beneath our feet / food and fiber / ashes to ashes, dust to dust / dirt! Soil has been called the final frontier of environmental research. The critical role of soil in biogeochemical processes is tied to its properties and place—porous, structured, and spatially variable, it serves as a conduit, buffer, and transformer of water, solutes and gases. Yet what is complex, life-giving, and sacred to some, is ordinary, even ugly, to others. This is the enigma that is soil. *Soil and Culture* explores the perception of soil in ancient, traditional, and modern societies. It looks at the visual arts (painting, textiles, sculpture, architecture, film, comics and stamps), prose & poetry, religion, philosophy, anthropology, archaeology, wine production, health & diet, and disease & warfare. *Soil and Culture* explores high culture and popular culture—from the paintings of Hieronymus Bosch to the films of Steve McQueen. It looks at ancient societies and contemporary artists. Contributors from a variety of disciplines delve into the mind of Carl Jung and the bellies of soil eaters, and explore Chinese paintings, African mud cloths, Mayan rituals, Japanese films, French comic strips, and Russian poetry.

French Rococo Ébénisterie in the J. Paul Getty Museum Gillian Wilson 2021-03-30 The first comprehensive catalogue of the Getty Museum's significant collection of French Rococo ébénisterie furniture. This catalogue focuses on French ébénisterie furniture in the Rococo style dating from 1735 to 1760. These splendid objects directly reflect the tastes of the Museum's founder, J. Paul Getty, who started collecting in this area in 1938 and continued until his death in 1976. The Museum's collection is particularly rich in examples created by the most talented cabinet masters then active in Paris, including Bernard van Risenburgh II (after 1696–ca. 1766), Jacques Dubois (1694–1763), and Jean-François Oeben (1721–1763). Working for members of the French royal family and aristocracy, these craftsmen excelled at producing veneered and marquetry pieces of furniture (tables, cabinets, and chests of drawers) fashionable for their lavish surfaces, refined gilt-bronze mounts, and elaborate design. These objects were renowned throughout Europe at a time when Paris was considered the capital of good taste. The entry on each work comprises both a curatorial section, with description and commentary, and a conservation report, with construction diagrams. An introduction by Anne-Lise Desmas traces the collection's acquisition history, and two technical essays by Arlen Heginbotham present methodologies and findings on the analysis of gilt-bronze mounts and lacquer. www.getty.edu/publications/rococo
